ANISH BASNET

SOFTWARE DEVELOPER | JAVA | SPRING BOOT | REST APIs | SQL

+1 437-955-1764 | theanishbasnet@gmail.com | anishbasnet.com | linkedin.com/in/theanishbasnet | github.com/anishbasnetAB

PROFESSIONAL SUMMARY

Java Backend Developer with 1+ year of professional experience building and optimizing Spring Boot REST APIs with JPA/Hibernate, MySQL, and PostgreSQL. Delivered 10+ production endpoints and reduced average API latency by 30% by eliminating N+1 database queries and reducing database round-trips by more than 40%. Built and deployed a Java 21/PostgreSQL banking API with transactional controls, 50+ automated tests, Docker, and GitHub Actions CI/CD. Hold the AWS Certified Cloud Practitioner certification. **Authorized to work in Canada without employer sponsorship (PGWP).**

TECHNICAL SKILLS

Backend	Java, Spring Boot, Spring Data JPA, Hibernate, REST APIs
Data	PostgreSQL, MySQL, Redis, Kafka (basics), Flyway, relational database design
Testing & DevOps	JUnit 5, Mockito, Docker, Docker Compose, GitHub Actions, CI/CD, AWS
Languages	Java, SQL; working knowledge of Python and JavaScript
Frontend	React 18, TypeScript, HTML, CSS
Methodologies	Agile/Scrum, code review, requirements analysis
AI Assisted Dev	GitHub Copilot, Claude Code, ChatGPT, Cursor

PROFESSIONAL EXPERIENCE

NexGen Jan 2023 to Dec 2023

Internship (Jan to Apr 2023) progressing to Junior Developer (May to Dec 2023)

- Delivered 10+ REST API endpoints for three client-facing modules using Core Java and Spring Boot on an Agile team of six, working from previously defined requirements.
- Modeled and queried relational data using JPA/Hibernate against MySQL, supporting three production modules with consistent schema design.
- Refactored service and data-access layers to eliminate N+1 query patterns, reducing average API latency by 30% and database round-trips by more than 40%.
- Wrote and maintained JUnit 5 and Mockito automated tests with 80%+ unit-test coverage, and documented findings through peer code reviews.

Technobyte Dec 2021 to Mar 2022

Flutter Intern

- Contributed Flutter UI features to three mobile releases, integrating REST APIs and resolving 10+ QA-reported defects.
- Coordinated fixes with a cross-functional team through structured QA handoff, writing reusable Dart components based on user feedback.

PROJECTS

Ledger-Core, Banking REST API Jan 2026 to Present

Java 21 · Spring Boot · PostgreSQL · Flyway · JUnit 5 · Docker · GitHub Actions

- Designed and built a Java 21 and Spring Boot REST API handling account management, ledger postings, and reconciliation on PostgreSQL, validating 1,000 automated transfer attempts with no duplicate postings.
- Added 50+ automated JUnit 5 and Mockito tests and a Docker-based GitHub Actions CI/CD pipeline covering build, test execution, and deployment.

GitHub | Live Demo

Trading Exchange Simulator May to Jun 2026

Node.js/Fastify · React 18/TypeScript · Redis Pub/Sub · Docker Compose

- Built a full-stack trading dashboard with a Node.js/Fastify service layer and a React 18/TypeScript frontend, using Redis Pub/Sub for real-time updates.

CERTIFICATIONS

AWS Certified Cloud Practitioner, Issued July 2026

EDUCATION

Postgraduate Diploma, Computer Software Engineering, Lambton College, Ontario Jan 2024 to Aug 2025

BSc (Hons) Computer Science, First-Class Honours, London Metropolitan University, UK Jan 2019 to Sep 2022
