Professional Experience

NexGen **Jan 2023 to Dec 2023**
Software Developer, Digital Pasal (inventory and payments platform) *Java, Spring Boot, MySQL, React*

- Reduced API response time by **30%** and database round trips by **40%+** by eliminating Hibernate N+1 queries in MySQL.
- Built 10+ Spring Boot REST endpoints for accounts and payments, used across a platform serving **30+ retail shops**.
- Cut the open bug backlog by ~**40%** by resolving 15+ defects and integrating REST APIs with React components.
- Maintained ~**80% unit test coverage** using JUnit 5 and Mockito.

Technobyte **Dec 2021 to Mar 2022**
Flutter Developer Intern *Flutter, Dart, REST, MySQL*

- Shipped **Flutter** UI features across **3 mobile releases**, by integrating MySQL-backed REST services.
- Resolved **10+ QA-reported defects**, by testing REST endpoints and handling JSON error states across screens.

Projects

Ledger-Core, Banking Backend REST API **Jan 2026 to Present**
Java 21, Spring Boot, PostgreSQL, Kafka, Redis, Kubernetes, Docker
github.com/anishbasnetAB/ledger-core | ledger-core-frontend-anish.vercel.app

- Load-tested **1,000 concurrent transfers with zero duplicate postings** by implementing idempotency keys enforced through a database UNIQUE constraint.
- Preserved balance correctness under concurrent transactions using double-entry bookkeeping, an append-only ledger, ACID transactions, and optimistic locking.
- Implemented secure, event-driven transaction processing with Spring Security, JWT, and Kafka-based idempotent consumers, using Redis to reduce repeated reads while preserving database correctness.
- Deployed **3 Kubernetes replicas** on AWS EC2 with **zero-downtime** rolling updates, GitHub Actions CI/CD, Flyway migrations, and **50+ JUnit tests**.

Education

Lambton College **Jan 2024 to Dec 2025**
Postgraduate Diploma, Computer Software Engineering *Ontario, Canada*

London Metropolitan University **Jan 2019 to Sep 2022**
BSc (Honours) Computer Science, First-Class Honours *London, United Kingdom*

Technical Skills

Backend: Java 21, Spring Boot, Spring Data JPA, Spring Security, Hibernate, REST APIs
Data & Messaging: PostgreSQL, MySQL, Redis, Apache Kafka, Flyway
Testing & DevOps: JUnit 5, Mockito, Docker, Kubernetes, GitHub Actions, AWS, Maven
Frontend: React, TypeScript, JavaScript
Languages: Java, Python, SQL, TypeScript

Certifications

AWS Certified Cloud Practitioner, Amazon Web Services **Issued July 2026**
